### PROFILE

Fresher MERN stack developer skilled in MongoDB, Express.js, React.js, and Node.js. Experienced in building responsive web apps, designing APIs, and managing databases. Passionate about problem-solving and eager to grow in a collaborative environment.

### PROJECT

#### Portfolio WebsiteMAY-JUNE

- Crafted a responsive and visually appealing portfolio website using HTML, CSS, JavaScript, and React. The site showcases my projects, skills, and achievements with dynamic UI components and seamless navigation. Focused on delivering a user-friendly experience and optimizing performance for all devices.

#### Ecommerce ApplicationAUG - NOV

- Developed a dynamic e-commerce platform with a dashboard, featuring cart functionality to add and remove items seamlessly. Built using React for the front-end and Redux for efficient state management. Focused on creating an intuitive user experience with responsive design and robust functionality.

#### Notes Saver ApplicationDEC - JAN

Designed and developed a feature-rich to-do list application using JavaScript. Implemented functionalities to create, read, edit, delete, share, and copy tasks. Data is persistently stored using local storage, ensuring seamless user experience across sessions.Focused on intuitive design, efficient performance, and delivering a tool that simplifies task management for users.

### EDUCATION

#### Bachelor Of Technology2022- 2026

Silver Oak University
